- Learn on the latest Toyota, Lexus and Scion vehicles and diagnostic equipment.
- Earn Toyota course credit for 10 TCTP courses (or Lexus course credit for 5 CTP courses).
- Toyota T-TEN students complete over 640 hours of work-site training at Toyota or Lexus Dealership
- Have passed at least 2 ASE certification exams.
- Have secured A/C certification.
- Have the technical training and the habits to continue taking updated courses as they become available.
- Are THE most highly trained and qualified employees you can find.
- Earn an Associate in Applied Science Degree from an accredited institution in one of the most highly respected higher learning systems nationwide—Oklahoma State University.

By our calculations, the cost to bring a technician to the same level of training and skill through the “Factory School” approach would be over \$20,000 in travel expenses and lost productively from being out of the dealership.
